The News.

We have, this morning, interesting news from Utah, which, if correct, would indicate that the Mormons are fully determined to cause the United State Government no little annoyance.

The steam or *Henry Jones* was burned on the Ohio river Saturday night. No lives lost, but two persons were badly burned.

From Congress we have no special news. A committee was appointed in the House to take into consideration the expulsion of Mr. Matteson, and territorial matters were discussed. In the Senate, Mr. Henderson, of Texas, appeared, was qualified, and took his seat. An attempt was made to call up the Kansas bill but without success.

The German and French socialists of New York held a meeting on Sunday, and fully endorsed the sentiments before adopted by another meeting, relative to the attempted assassination of Napoleon.

Gen. COMONFORT, late President of Mexico, has arrived at Baltimore, where he has been joined by leading Mexicans from Washington and other parts of the United States. The telegraph says that a mysterious movement is on foot in which Gen. C. is interested.

Gen. SHIELDS has come out point blank against the Lecompton Swindle. He has written a letter denouncing the fraud, and declares that no honest man can support it. All honor to the old hero.

The steamer *Empire City* is in. She brings no news of consequence from Cuba. The war in Mexico has ceased, PAEZ having agreed to surrender to Santa Anna, who will soon be formally installed as President.

Eastern markets dull and drooping; our home market unchanged.

The Investigation.

TESTIMONY OF MR. KILBOURN—BASHFORD REPORTED TO BE IMPLICATED IN THE CORRUPTION.

The city is full of rumors in regard to the progress of the investigation into the Land Grant frauds. Messrs. Kilbourn and Falvey have been examined. If half of the current reports be true, one of most pervading, monstrous, and damnable series of briberies and frauds will be disclosed that ever startled the public. The suspicions of the past, big and black as they have been, are likely to be resolved into verities of even more astounding proportions, and of yet darker and more repulsive characteristics.

It is said that ex-Governor Bashford is implicated in Mr. Kilbourn's testimony. The latter is reported to have sworn that he paid to Governor Bashford $50,000 in railroad bonds, and since that time that he has cashed $15,000 of those bonds. This is the story current in the lobbies, and about town generally.

If this prove true, which we sincerely trust will not be the case, it will go a great way to shake out of us all confidence in human nature, since we have not only the solemn assurance of Gov. Bashford to the contrary, but the positive, downright, unqualified denial of Mr. Kilbourn, himself, over his own signature, written for the express purpose of publication.

There are various stories, in regard to other points brought out by the Committee. These tend to show that with a few honorable exceptions—doubly honorable in contrast with the prevading corruption and in the presence of such temptation—the whole Legislature of 1856 were bought out, body, soul and breeches. We propose to give the facts, as they appear, without fear or favor. We shall endeavor to lay aside all partizan feeling in this respect; to shield no guilty man out of personal friendship, and to misrepresent no one out of political or personal hostility. The people wish to know the facts, and so far as we can aid in bringing them out, that wish shall be gratified.—*Madison Journal.*

Arrival of the American.

HALIFAX, Feb. 27.

The steamer America, from Liverpool the 13th inst., arrived at half-past five o'clock this afternoon.

She passed the Europa from New York for Liverpool Feb. 14th, off Kinsale.

The North America arrived out on the 11th. On the morning of that day she came in contact with the bark Leander, of Bath Me., bound from Liverpool to New Orleans, with a cargo of salt. The bark sank in five minutes. Mrs. Curtis, the Captain's wife, the second mate, and eight seamen were drowned. The Captain and eleven others were saved by the steamer, which was only slightly damaged.

The proceedings of Parliament were of an unimportant character.

The Bank of England reduced its rate of discount to 3 per cent. The movement had been anticipated, and the effect was slight. The applications for discount slightly increased after the reduction.

At a meeting of the directors of the Illinois Central shareholders, resolutions were passed recommending the directors not to enter into any fresh engagements without previously submitting them to the shareholders in public meeting.

The only news from France is, that the London *Daily News'* Paris correspondent believes that Marshall Vaillant, Minister of War, has resigned, and will be succeeded by Gen. Neil. He also thinks that Count Walowski will resign the port folio of foreign affairs.

BILLIARDS.—Yesterday, Mr. John W. Hester was playing a game of billiards, and by an adroit play brought two reds together about eighteen inches from the cushion at the foot of the table. He then "nursed" them so skillfully that he marked two thousand one hundred and fifty-seven points by seven hundred and nineteen consecutive carroms, without making a cushion! The time occupied in making this run of 2,157 points was only two hours, and it was only terminated when the player, feeling that he had accomplished a feat in billiards which, possibly, the world never saw before, became pardonably excited, lost his steadiness of nerve, and made a false play. This account might well be doubted were its correctness not attested by eight persons, who were absorbed spectators throughout the run. The papers of all the other cities—Boston, New York, Philadelphia and St. Louis—boast their big games of billiards, but we are much mistaken if they ever have, or ever will have, anything to equal the New Orleans run of 2,157 points. We advise Hester to quit the game now, and never risk his laurels by playing again.—*N. O. True Delta, Feb.* 12.

ANOTHER REMOVAL.—NEWS OF THE DECAPITATION OF DAVIDSON CONFIRMED.—The axe has fallen again; this time on the neck of——Ward, of Pittsfield, Pike Co., Mail Agent for the State of Illinois. His successor is Dr. Charles Leib, of this city. This news was telegraphed to U. S. Marshal Davidson, and at the same time he received the news of his own unexpected decapitation. The place in which Leib is put is one of great responsibility; pay $1,500 per annum and great responsibility; pay $3 per diem traveling expenses. The thing is working. It is unnecessary to say that Ward is Mr. Douglas' friend, and hence his decapitation. —*Chicago Tribune.*

MADISON CHARTER ELECTION.—CHAUNCY ABNOT, having declined the Republican nomination for Mayor of Madison, NOBLY Gray was selected in his stead, at the same time WM. WELCH was nominated for Police Justice. The election came off yesterday.

LOGS AND RAILROAD TIES.—A large number of logs and railroad ties have been brought into Jefferson within the last fortnight, which has given our village a healthy and business like appearance. The passage to the saw mills is completely blocked up with logs, and the banks of Rock river in the vicinity of our village strewed with thousands of ties.—*Jeffersonian.*

The Watertown Railroad Difficulty.

GREAT EXCITEMENT—ENCOUNTER BETWEEN THE RAILROAD MEN AND THE POLICE, AT WATERTOWN—THE LEADERS ARRESTED.

There has been considerable excitement in our city for the past three or four days occasioned by M. D. C. Freeman's keeping possession of the Milwaukee & Watertown R. R., after its sale by the La Crosse Company to the Madison Fond du Lac & Michigan R. R. Co., and the latter company's attempt to take forcible possession of the road. On Saturday afternoon a number of the directors and officers accompanied by about thirty or forty men proceeded to the depot in this City, just before the time for the train leaving for Watertown, turned off the conductors, engineers and other officers, after some resistance on the part of the Freeman men, and took entire possession of the train. The "Jackson party" were so much in the ascendancy as to numbers, that the other had no chance to make any resistance, and went on to Watertown ousting the Freemanites from each station as they went along and giving possession to some o their own party. The thing was done so unceremoniously, that little was known about it in this city until yesterday, when the leaders of the Jacksonites were brought back in irons by the Chief of Police to answer the charge of riotous conduct.

It seems after the train arrived at Watertown, and the particulars of the affray having been ascertained, the Freemanites, who are rather strong at that end of the road, turned out and attacked the Jackson party, and after something of a mass succeeded in getting possession of the train and depot, the latter, however keeping possession of the "round house," in which they secured themselves against any attacks which the enraged Freemanites might make upon them. No very serious difficulties however occurred, excepting one on two flatcuffs. On Sunday evening the chief of police, Beck, with ten of the police took a special train and went out to Watertown with warrants for the arrest of all who had taken a prominent part in the riot. They arrived at Watertown towards midnight and arrested all those for whom they had warrants.—There was considerable excitement there, and some resistance upon the part of the more enthusiastic Jacksonites, but most of them surrendered peaceably, and were brought directly back to this city in the special which train arrived here yesterday morning about 8 o'clock and were allodged in the watch house. Among the rest were Judge Rose, the president of the M. F. & M. R. R. Co., Mr. Jackson, and a number of residents of this city. Yesterday morning at 10 o'clock they were all brought up in the police court to answer the charge of riotous conduct. The examination of the parties was postponed to the 10th inst., and the defendants required to give bail in the sum of $500 each for their appearance.

At Watertown, there was more excitement than any where else on the road, although it luckily happened that no one received any very serious injuries. At one time the police came very near having a serious affray with some of the burghers of that place, who took the part of the Jacksonites, and made some hostile demonstrations, but got pretty severly handled and concluded to keep out of the melee. The chief got an ugly clip in the mouth, but we believe no other injuries were sustained by the police. As the number of prisoners was larger than that of police, the chief had them all hand-cuffed until they reached this city. Some of them felt rather displeased at being "put in irons," but others laughed at it as a good joke.

The parties who were arrested at Watertown are Samuel L. Rose, D. C. Jackson, Geo. Patterson, L. S. St. John, James P. Wood, Hubbard Atkins, John Sheapy, John F. Kennedy, Daniel Huffner, Edward Mahoney, John Connally, Patrick McDonough and Luther May.

Yesterday afternoon at the time the train left for Waterton, over 500 persons had assembled about the depot, most of whom, no doubt, were impelled by motives of curiosity, expecting to see another row, but there was no disturbance whatever, and if there had been, the police would very soon have put a stop to it. A number of both parties went out on the train; the Freemanites in possession. It was thought by some that there would be another fight on the road or at Watertown, but we do not anticipate any more hostilities on either side, and for the credit of both parties, we trust there will be none.

Arrival of the Moses Taylor.

NEW YORK, Feb. 27.

The Moses Taylor brings $1,640,000 in specie.

She left Aspinwall on the 19th, and Kingston, Jamaica, on the 21st inst.

The U. S. steamer Fulton, Lieut. Commanding Almy, arrived at Aspinwall on the 11th, from the Island of Old Providence, and left again February 15th, on a cruise to Cherique, at the mouth of the river Colorado and San Juan del Norte.

The main topics of news for the last fortnight have been the proceedings of the Legislature.

A multitude of suicides, bloody affrays and a severe storm had taken place.

The Legislature has done very little work as yet—no important bill having passed. Mr. Ferguson offered in the Senate, on the 1st, a series of resolutions approving of the position taken by Douglas in regard to the Kansas question.—The resolutions have been made the special order for the 12th inst.

A shooting affray occurred in Oroville on the 27th ult., and resulted in the wounding of five persons. The affair occurred in the office of Berry, Justice of the Peace.

An attempt was made on the night of the 26th ult., to assassinate Mr. Folgar, local reporter of the Sacramento *Union*, by striking him with a slungshot. Though severely cut on the head, he managed to escape.

Gen. Clark has sent companies of artillery to San Bernardino, to remain there as a protection against any possible inroads by the Mormons, until instructions are received from Washington.

The news by the South American mail is not important.

In Peru, Castillo had beaten back Vivanco's troops, who left their dead and wounded upon the field.

The contract for supplying the United States with guano has been given to the Peruvian house of Leanacondequi & Co.

The Peruvian revolution is regarded as about at a close.

W. Cary Jones was, at last accounts, at Realigo, awaiting the arrival of Gen. Lamar.

The new coffee crop of Costa Rica is coming, and is reported below an average in quantity.—There is none in the market.

HORACE GREELEY IN CANADA.—Horace Greeley lately delivered a lecture at Montreal, upon the subject of "Reforms and Reformers." In his preface to a sketch of the lecture, the *Gazette* says:

The large Mechanics' Hall was well filled on the occasion with a highly respectable and attentive audience. Many had great interest to see one of the most remarkable men in America. Mr. Greeley was welcomed with cheering. He has past the middle age, and indeed seems to have made progress in the soar. His head is bald—his countenance thoughtful—his gait awkward. As he commences to speak his hearer is not pleased with his diction. His voice is not pleasant, but harsh, and has a peculiar intonation; and to this may be added a rapid utterance, not always favorable to a ready catching of his meaning. But he does not proceed far before he convinces his hearers that he is thoroughly in earnest; that he at least is *true*, even if his philosophy does not altogether convince; and this is high praise to say of any man. He is evidently not afraid to speak his mind. His language is exceedingly fresh and racy, and occasionally his expression is very intense—his sarcasm very biting—his ridicule provocative of involuntary laughter. In truth it unites many of the qualifications of American wit and humor.

☞ Mr. Wall, this morning calls your attention again to the extensive sale of Furniture, which comes off on Wednesday morning.

FOUND DEAD.—On Saturday night the body of a young man, by the name of Wm. Cross, who has been missing since November last, was found in the Canal near the Empire Mills.—Cross had been employed upon the M. & M. R. R. as a fireman, and was generally known on the Road as "Michigan Bill." He was about 21 or 22 years of age, and when last seen, we believe, was in a state of intoxication.

It is thought by some that he was foully dealt with, though there is little ground for this supposition. An examination was made upon the body, and a coroner's inquest summoned yesterday. No marks of violence could be distinguished, and the verdict of the jury was that the deceased came to his death by drowning, whether accidentally or otherwise it was impossible to ascertain. The body of Cross was buried by some of his friends. We believe he had no relations in this State.

"THE OLD PIONEER."—It will be seen, by reference to [the Hymeneal department in this morning's *Sentinel*, that Col. GEORGE H. WALKER, the "old Pioneer" of Milwaukee, yesterday took to himself a wife. The Colonel has seen Milwaukee grow from a hamlet containing *one* family to a City of 50,000 inhabitants, and we venture to say, that among all that number there is not one, who will not greet the announcement of his marriage with the warmest wishes for the health, happiness, long life and enduring prosperity of himself and his bride. God bless "the old pioneer!"

HINT TO ADVERTISERS.—It is suggested, that persons who advertise that they have houses to let ought to state the amount of rent of the same; also whether the tenant is or is not to pay the taxes on the premises. Much valuable time is wasted in running after houses, and when found the rents are often far above the means of the persons desiring to rent. If every advertiser would state where his house is situated, what size it is, how finished, and what rent he wants for it, he would take the best course for his own interest, and the most likely one to let his house, and would at the same time save a great amount of time, trouble and expense to those who are looking for houses. We trust that this method will at once be adopted by the landlords in this city.

PURSUING AMUSEMENT UNDER DIFFICULTIES.—It's human nature to seek amusement, and men as well as boys will have their fun in whatever circumstances they may be placed. The occupants of our loathsome and filthy jail when awaiting their trials amused themselves, and helped the monotonous days to "drag their slow lengths along" more swiftly, by getting up a burlesque on the tribunal before which they were shortly to be tried. The farce of Circuit Court, judge, sheriff and stupid jury men, was completely carried out, and all the ramifications of the law strictly adhered to. The judge would charge the jury with monstrous solemnity, cautioning them not to go to sleep, and the ceremony usually ended by the one who had been convicted being sentenced to perform some task which would afford merriment for the rest.

POLICE COURT YESTERDAY.—Patrick Fahey, drunk and noisy, fined $1,00; Frederick Waldace, selling liquor without a license, fined $25 and costs; James R. Patterson and M. L. Palmer, drunk and noisy, fined $3,00 each; Charles Smith, drunk, fined $1,00.

The following persons were arrested at Watertown on Sunday, charged with being engaged in the Watertown R. R. difficulties, and gave bail in the sum of $500 each for their appearance on the 10th inst.:—S. L. Rose, D. C. Jackson, Geo. Patterson, S. S. St. John, James P. Wood, Hubbard Atkins, Geo. May, John F. Kennedy, Edward Mahony, John Conolly, Luther May, and Patrick McDonough.

☞ We do not question the *Wisconsin's* right to suppress or publish whatever may suit its own taste, but we hold that we have the same unquestionable right to criticise anything that comes before the public, to the protests of the["*pottery*-headed" street [reporter the contrary notwithstanding.

ORGAN MANUFACTORY.—Messrs. James O'Brien and E. C. Le Droit have just established an Organ Manufactory in this city, at the corner of Milwaukee and Michigan Streets, in the Third Ward. They have been long engaged in this business, in Massachusetts, and bring with them, from their former place of residence, the most satisfactory testimonial as to their skill as Mechanics, and their character as men. We cordially commend them to all who may have need of their services, in building, repairing, or tuning Organs.

A WELL DESERVED COMPLIMENT.—The Baraboo *Republic* thus refers to the newly appointed Treasurer of the Milwaukee and Mississippi R. R. Company:

HONOR TO WHOM HONOR.—We are much gratified to state that at the late meetings of the Directors of the Milwaukee and Mississippi R. R. in Milwaukee, our friend and fellow citizen, Charles H. Williams, Esq., of Freedom, was chosen Treasurer of that Company. The directors have done themselves honor by their choice.—Mr. Williams is well known in this locality as an honorable and a sound business man, and a gentleman in every sense of the word. The best wishes of numerous friends attend him in his new sphere of duty.

NEW FIRM.—Messrs. J. W. Orain and W. R Freeman have entered into a co-partnership in the Insurance business. Both the gentlemen are well and favorably known to our citizens, Mr. Orain as an Insurance agent, and Mr. Freeman as late cashier of the Globe Bank. They are both business men of talent and experience, and highly deserving of the confidence of the public. They represent a number of reliable Insurance Companies, and we feel confident that those who may have occasion to transact business with them, will find them to be men of the right stamp.

MILWAUKEE CITY DIRECTORY.—Messrs. Smith, DeMoulin & Co., announce this morning, the prospectus for their new City Directory. It is their intention to give such a Directory as our people may well feel proud of, sparing no pains or expense in rendering it correct and reliable. Such a Directory Milwaukee is in need of now, but will feel the necessity for it to a greater extent next season. The general plans for the new Directory are set forth in another column, and the plan commends itself to our citizens generally. We trust the publishers will meet the best of success in this enterprise.

THE DEDICATION BALL AT WAUKESHA.—We are indebted to the politeness of George Hatch, Esq., for a complimentary ticket to the Festival which is to come off on the 4th inst., on the occasion of the dedication of Robinson's Hall at Waukesha. The Hall is said to be an elegant one, and the most extensive preparations have been made to render the party a most agreeable one. We expect to be on hand, and hope to meet a goodly number of our Milwaukee people there.

Church Organ Manufactory.

LE DROIT & O'BRIEN, LATE OF BOSTON MASS.—Having established ourselves in Milwaukee, for the purpose of carrying on the business of Organ building, we would solicit the patronage of the religious societies of the West. Our past experience, and our knowledge of the recent valuable improvements made in the construction of Organs, will enable us to perfect instruments that will give the best satisfaction in point of sweetness of tone and smoothness of action.

MONS. LE DROIT, has had an experience of ten years in the business, during which period he has been connected with the celebrated establishments of Simmons & Wilcox, late Simmons & Co. and E. & G. G. Hook, of Boston.

While in the employ of the above firms he has been entrusted with the setting up, repairing and tuning of a great number of organs, in the East, West, South-West and the Canadas, from which places he brings the most flattering testimonials of ability as a practical mechanic, thoroughly acquainted with his business in all its departments.

Mr. O'Brien brings from Boston a well-earned reputation for superior orchestcral and mechanical skill.

We are now prepared to execute orders from any part of the West, for the building, repairing and tuning of organs, and all such orders will be promptly attended to. We will take old instruments in part payment for new ones.

Of the entire city, in which every branch of business, profession and trade will be alphabetically arranged, and classified under each appropriate heading.

A STREET AND AVENUE DIRECTORY,

Embracing a correct list of every street, lane, alley, and Avenue, where each commences and terminates, and when numbered, the odd and even numbers on each side and corner.

Together with the ADVERTISEMENTS of Merchants and Manufacturers.

☞ The subscribers will publish the above Directory on the 15th June next.

☞ The canvass for the names cannot, to insure accuracy, be commenced until May 1st, after the removals and changes have been made for the present year, but the canvass for other information necessary to be compiled will be commenced on the 1st of April.

☞ By a reference to the Prospectus you will see that we propose in addition to the more Directory of names to add a general BUSINESS DIRECTORY; also a complete STREET AND AVENUE DIRECTORY and CITY RECORD. Another feature is, in connection with each firm's name we give the name of every individual member of the firm, for example: Smith, Brown & Co., (J. Smith, Wm. Brown and O. Jones,) Dry Goods, 35 East Water St.

☞ We flatter ourselves from our long experience, (having been engaged as Directory compilers in New York for the past 10 years,) and from our mode of canvassing, which is, to visit every dwelling house and store, and to take every name on a separate slip of paper, and in ink, (thereby obviating the necessity of recopying the same,) without the least reference to ANY PREVIOUS PUBLICATION, that our book will prove the most reliable work of the kind ever presented to the Milwaukee public.

☞ Many persons object to advertising in a Directory. This objection will at once be answered, when it is known that the VITALITY of the undertaking depends solely upon its advertising patronage.

It will not be amiss here to remark that ours is a home enterprise. No advertisements of Eastern Houses will be solicited, believing this city to be able to support her own institutions, and, that we do not err in our judgment, we hope to be able to point out to you in our forthcoming work a sufficient number of advertising pages to corroborate our assertion beyond all peradventure.

The Book will be of octavo size, handsomely printed and well bound.

☞ Advertisements will be inserted on tinted pages conspicuously displayed, at reasonable rates.

☞ Subscription price of the Book, $2 00.

☞ Each of our Canvassers will be provided with a specimen book.

Interesting News from Utah.

NEW YORK, March 1.

The Tribune has some interesting details of the Utah news, from its special correspondents. Feldman, the hospital steward of the 10th infantry, and two teamsters who were captured in October by the Mormons, were released and arrived at camp Scott. They state that the Mormons were fitting out an expedition to interrupt Capt. Marcy on his return from New Mexico, seize his mules and destroy his escort. It is probable that a similar effort will be made to intercept the drivers of horses, that will be sent down to the army from Oregon. Feldman says that many of the Mormon troops have been withdrawn from Echo Canon, but estimates the number remaining at 1,000. William Stowell, the prescribed Mormon prisoner, was arraigned on the 4th January, before the district court, upon the indictment for treason returned by the grand jury Dec. 30. His trial was deferred to the next term of the court, to give the accused an opportunity of defence.

MILWAUKEE:

TUESDAY MORNING, MARCH 2.

The U. S. Supreme Court.

The proposition made Gov. SEWARD, in the U. S. Senate, for a re-organization of the U. S. Supreme Court, excites a variety of comment in the public press. The notorious facts, that this Court, as at present organized, is not only partizan, but sectional in character; that the South, with little over one-third of the population of the Union, has a majority of the Judges; and that whenever any question comes before them, affecting, nearly or remotely, the "peculiar institution", law, precedent and right must yield to the interests of SLAVERY, have long since convinced the People of the Free States of the necessity of some such reform as that proposed by Senator SEWARD. That gentleman, in intimating his purpose to bring that subject before the Senate, fitly characterized the Supreme Court as "the citadel of Slavery," and to storm *that*, is to deprive Slavery of those exclusive rights, that national character and that legal sanction, which it has hitherto enjoyed under the shadow of this supreme tribunal.

There are quarters, however, in which the proposition is not favorably received. The slaveholding interest, naturally anxious to retain their preponderance on the Supreme Court Bench, are vehemently opposed to any change. And their doughface allies at the North make haste, as usual, to take sides with Slavery and against Freedom. The N. Y. *Journal of Commerce* comes promptly to the rescue of this Pro-Slavery Court in an article which is copied approvingly by the *News*. We have not room for the whole article, but the following extracts illustrate its argument and spirit:

> At first glance the idea seems plausible, and there is great danger that too many of the community at large may be misled by the specious argument. But in point of fact, the project is one of the most radical and dangerous that has been suggested by a party famous for the rejection of old principles, and adherence to popular delusions. It is based on the false notion that a Court is a representative body; a notion which has led to the *election* of Judges in some States, and a consequent debasement of the bench; although the election of Judges does not *necessarily* imply that they are in any sense representatives.
>
> * * * * * * *
>
> But even if a Court were representative in its character, *public policy* would require that a *majority of the Court should come from a minority of the people*. We say policy would require this, for a popular majority need a check of this kind.
>
> We say that policy, patriotism, and love of justice and our Union, dictate, in this state of the country, *the propriety of preserving a Southern majority in the Supreme Court.*

Nothing, perhaps, could more strikingly illustrate the extent of the *News'* subserviency to its Federal and Pro-Slavery task-masters, than the extracts above given. For a Northern Democratic paper coolly to maintain, that an elective Judiciary *debases* the bench; that a *majority* of a Court should always represent a *minority* of the People; and that "a Southern majority" ought to be preserved in the U. S. Supreme Court, argues a degree of doughfaceism and an abandonment of heretofore professed principles, which must strike even the most unquestioning believer in the *News* (if such a natural curiosity exists) with utter astonishment. But let us do the *News* the justice to say, that its views on this question are consistent, at least, with its support of the Lecompton Swindle. The argument in favor of continuing a Southern majority in the Supreme Court, and of forcing the Lecompton Constitution upon the People of Kansas, is based on one and the same idea, to wit: that the *minority shall rule*. To be sure, there has been, as the *Journal of Commerce* has it, a "popular delusion," heretofore, on this subject, and many have supposed that our Government rested upon, and that "Democracy" meant, *the will of the majority*. But MR. BUCHANAN and his backers have changed all that, and set up, instead, the more convenient maxim to which the *News* and the *Journal of Commerce* yield such ready and cheerful assent.

THE PRICE OF ADMISSION.—It is reported from Washington that the purpose once entertained of the joint admission of Minnesota and Kansas has been abandoned, and that the plan now is to admit Minnesota first, on an understanding that her Representatives in the House will vote for the Lecompton constitution.

Mr. Rice, one of the Minnesota Senators elect, has the credit of making this arrangement.—Both himself and his colleague, Gen. SHIELDS, were Douglas men when they first got to Washington, but have "gone about," in obedience to a signal from the White House. The defection of MR. RICE does not surprise us, but we did expect better things from Gen. SHIELDS.

AN EDITOR'S SPEECH.—At a late meeting of the Library Association of Whitewater, the editor of the *Register* was called upon to respond to the sentiment, "The American Press." The editor's modesty of course compelled him to decline the honor, and in telling of the affair in the next issue of his paper, he says:

> We are not considered, among our friends as being much of an orator, our efforts in the speechifying line, having been mainly confined to extemporee remarks something after the following order: "I second the motion," "I move to adjourn" &c., under great mental excitement at political conventions, and meetings of like character. We therefore respectfully declined to exhibit ourselves for the amusement of the large and respectable audience present on Tuesday evening.
>
> But as we think the sentiment, so kindly proposed, should meet with some kind of a response we propose to make our speech here, and in the manner to which we are best accustomed. So, here goes:
>
> Mr. President, and Ladies and Gentlemen of the Association. (The audience will please imagine us making a very profound bow, and applying our right hand to the left pocket of our waistcoat.)
>
> And so the editor fires away after the most approved extended eagle style, becoming very eloquent and applauding himself tremendously, and closes with the parenthesis, "tumultuous and continued cheering!"

BURGLARS AT BARABOO.—The *Republic* says a scamp broke into and robbed a jewelry store in that village last week. The extent of the loss is small, but the *Republic* thinks there can be little doubt that there are some resident light fingered gentry in the place, who prefer to work nights on the property of others rather than employ themselves in the daytime upon their own. The successive attempts at robbing the business places of MRS. PERKINS, Messrs. AVERY, SLYE, THOPP & CO., RYAN, and one or two stores "under the hill," together with the fact that their mode of procedure is such as to indicate a knowledge of the entered premises, clearly points to the existence of a gang of house breaking rascals in our midst. Let them be ferreted out.

ARREST OF AN ASSEMBLYMAN CHARGED WITH FELONY.—We learn from the *Madison Argus*, that WM. C. WEBB, member of Assembly from Waushara County, was arrested on Saturday last, charged with having feloniously altered and mutilated an appropriation bill, while Chief Clerk of the last Assembly. The alteration charged, made the amount $80 more than the Legislature appropriated. The examination of MR. WEBB, under this charge, comes off at Madison to-day. We sincerely hope that he will be able to clear himself from so foul an imputation.

Correspondence of the Sentinel.

Winona, its Past, Present and Future.

WINONA, M. T., Feb. 23, '58.

Messrs. Editors:—Public attention, of late, has been so much occupied with the affairs of Kansas, that I fear we, of the "Gopher State," will be lost sight of altogether, unless you will condescend to let us occupy a small space, now and then, in the columns of your much read and deservedly popular paper, and were I to judge from the past, I doubt not but what the request will be granted.

Your numerous readers are, perhaps, aware that there is such a place in existence as "Winona," situated on the banks of the Mississippi River, in the embryo State of Minnesota. It is now dignified by being called the "City of Winona;" the good people here having obtained a charter from the State Legislature, and having duly elected a Mayor, the requisite number of Aldermen, and all other officers deemed necessary for the good government of the inhabitants contained therein, are now enjoying the benefits (if any there be) from the same. The city has now a population of 2,000, and ranks as the third town in the State. It has an excellent natural location, being built upon a plateau of ground sufficiently high to exempt it from any danger of inundation by the Mississippi, which sweeps by the town on its majestic course to the Mexican Gulf. The streets are all laid out at right angles, are level and hard, being composed of a gravelly soil, and as we are seldom troubled with any mud, they afford as fine promenading, and drives as a person could wish for, which the "beaux" and "belles" of fair Winona duly improve on every pleasant sunshiny day to exhibit themselves; and I do not speak boastingly when I say that there are more handsome young ladies here than in any town in the State, not excepting St. Paul. In front of the town is an excellent Levee, half a mile long and affording a good landing, at any stage of water, for steamers of the largest class. The number of arrivals and departures of steamboats at this port during last season exceeded eight hundred, and it is fair to presume that there will be a large increase next season. The town boasts of one of the largest and best conducted Hotels in the State, built at an expense of $20,000; there are three or four very creditable Church edifices, besides numerous fine private residences; four steam saw and planing mills; one steam flouring mill; foundry and machine shop; chain factory and the largest warehouse on the river, costing $15,000. There are various societies, consisting of Free Masons, Odd Fellows, Good Templars, Gymnasiums, Chess Clubs, &c.; among which I would particularly mention, the "Winona Literary Association," who have formed the nucleus of a good library. It furnishes Lectures and debates once a week during the winter season, free of charge to the public. The Society in itself boasts of an array of talent, that would do great credit to much older and more populous towns in the East; it is an institution that reflects credit upon the gentlemen who have it in charge, among whom are some of our most prominent citizens. Several good schools are in operation, and although educational interests have heretofore been somewhat neglected, as is the case in all new countries, the people are bestirring themselves now, and the consequence is that a deep interest is being felt in their management.

The Press of this city consists of two Journals, issued once a week. They are called the *Republican* and *Times*; the former advocates the principles of the Republican party, and the latter those of the Democratic, but *not* that "Democracy" which requires the swallowing of the "Lecompton iniquity" as a test of faith. Both papers present an excellent typographical ability—and last, but not least, among the notable features here, is our "Fire Department," which consists of two Engines, built by HUNNEMAN of Boston, expressly for this city. They are splendid specimens of his manufacture. "Winona" and "Grey Eagle" are manned by as gallant a set of boys, as ever "run wid der machine," and I have no doubt are able and willing to do good service, should the occasion require it. Connected with the Department is a Hook and Ladder Cart and apparatus, built in New York City, and a very fine one it is.

Such is the City of Winona, in February, 1858. Three years ago this month, she was but an insignificant town of about 400 inhabitants; her progress has been wonderful, and from her splendid geographical position, commanding as she does, the best portion of the trade of southern Minnesota, which is acknowledged by all, to be the garden of the State, and when the "Transit Rail Road" is completed to the Minnesota river of which this place is the terminus, I predict, for her future, a career even more glorious, than has been her past. It will be recollected that the above road was endowed by the most magnificent grant of lands, by the last Congress, that has yet been given to any road, west of the Mississippi. The roads runs through the fine Agricultural counties of Winona, Olmsted, Dodge, Steele and Lesueur—where it crosses the Minnesota river—and thence on its westward course to the Missouri river. As I contemplate a tour west on the line of this route soon, I shall, in some future letter, refer more particularly to this road and the country, lying on either side of it, and its bearing upon the prosperity of the State when completed, and also the importance of an eastern connection with this road to the City of Milwaukee. Having encroached on your columns more than I had originally intended doing, I will close by bidding you an "Adios."

"BERNARDO."

SENATOR SEWARD.—It is generally believed that this distinguished gentleman, having got thoroughly tired of the sectional din, contemplates a severance of his alliance with the republicans. We find the following, which was written to the editor of the Buffalo *Commercial* in a number of that paper dated the 25th.—*News.*

"It is generally believed" that both the *News*" and the Buffalo *Commercial*, though bitterly opposed to Senator SEWARD, and always ready to misrepresent him, would be exceedingly pleased to witness "a severance of his alliance with the Republicans." But we very much doubt whether they are likely to be gratified in this particular, so long as the necessity for the Republican party exists, or its mission remains unfulfilled.

STATE TAXES—ROCK COUNTY.—We confess a little partiality to "old Rock," and when she does the handsome thing, which is as often as she says or does anything in relation to State affairs, we must be permitted to speak about it.—During these excessively hard times the county of Rock promptly paid the whole of her State tax to the State Treasury, amounting to $20,423,01, which is nearly twice as much as any other county has paid this year. Of this sum, $9,091,45 was paid in specie, $1,000 in currency, and $9,432,26 in State script. Fond du Lac county stands next to Rock in the amount paid, which is $12,791.

There are but five counties in the State which have paid their State taxes in full, viz: Rock, Grant, Green, Kenosha and Monroe.

While the money pressure has affected this county, in common with all others in the State, the above facts show that the county of Rock is well able to meet her obligations, and though it has been at the cost of considerable sacrifice, her people have cheerfully made them and paid the last farthing which the county owes to the State. In ordinary times it might not be worth while to call attention to these facts, but at present, when nearly one-half of all the taxes in the State remain unpaid, we may be pardoned for alluding to them, and of congratulating the citizens of our county upon the creditable position which she maintains, financially as well as because she is the first agricultural county in the State.—*Janesville Gazette.*

GREEN BAY AND MENASHA RAILROAD.—The Green Bay and Madison Rail Road Company have located their line on the east side of the river to Menasha, and the Common Council of Green Bay have voted to aid the company to the amount of $148,000. The route is found exceedingly feasible, and the distance less than 30 miles. It is expected that work will be commenced on this road early in the spring, and prosecuted to completion within 18 months from that time. It is a work of the first importance to Green Bay, and when completed will give them railroad connections with the Manitowoc and the Well River Rail Roads at this place, and with the Land Grant Road, (if that ever gets here) and through these roads with Milwaukee, Madison, Chicago and all the rest of the world.—*Conservator.*

LATE FROM UTAH.

ARMY IN GOOD HEALTH—BRIGHAM YOUNG INDICTED FOR HIGH TREASON.

E. G Browne, Esq., the gentleman who accompanied Col. Johnson's command to Utah, as correspondent of the *Tribune*, arrived in town last evening via Pacific railroad. Mr. B. left Camp Scott on the night of January 5th, and arrived at Fort Leavenworth on the 18th of February, having accomplished the journey in between forty and fifty days. The snow, on the route from Green river to the point where he touched the Sweetwater, was from one to two feet deep, but after leaving that point, he encounted, little snow until he reached Ash Hollow, thence snow was met until his arrival at Leavenworth. Mr. B. left camp in company with Mr. I. M. Hockaday, U. S. Attorney for Utah territory.

The health of the army Mr. B. represents as excellent. No deaths occurred among the officers, and but few deaths among the men. Governor Cumming, notwithstanding his duties, still retains his rotundity, and is busily engaged in preparing for the spring campaign. Secretary Hartnett is also represented as enjoying excellent health. Scurvy had not as yet made its appearance in camp. The weather continued remarkably mild for the region. Very little snow had fallen in the immediate vicinity of the camp, and most of the time the ground had been almost bare. Old mountaineers have not witnessed anything like it before in the mountains.

The district court had indicted Brigham Young, Kimball and others for high treason, on the 30th of December. The Mormon legislature was still in session.

No mail communication has been received from the states since the 1st of October; and the latest dates by mail, from New York, were of September 23d. In consequence of the rumored money panic in the United States, great anxiety had been experienced to hear from the east.

There is every probability that the Mormons will fight, or they have gone too far to recede.—Mr. Browne on the road passed stragglers who had left Camp Scott at the time of the dismissal of the men employed by Russell, and, who had refused to enlist as volunteers. They had walked the entire distance. Many of them were badly frost bitten.—*Missouri Democrat, Feb. 24.*

Office Seekers after the Vacancy made by Judge Kane's Death before he was Buried.

(Special Correspondence of the Cincinnati Gazette.)

WASHINGTON, Feb. 23.

Before the death of Judge Kane, of Philadelphia, was announced here, and when it was believed he was beyond the prospect of recovery, the political hyenas—for they deserved to be called by no other name—presented themselves at the White House to anticipate the Destroyer, by propitiating influence for the foreshadowed vacancy. A common regard for the decencies of life should have ensured their prompt rejection, and the fact that such a suggestion could be entertained, proves to what depths even the high-cast authority have fallen. The deceased Judge was an old personal and political friend of the President; yet the office which he held became the object of a scramble before his remains were consigned to their last resting place.

VERITAS.

A Voice from the North.

The Green Bay *Advocate* speaks out manfully against the Lecompton Swindle. The *Advocate* is an old, able and influential "Democratic" paper, but it is not ready to surrender its judgment and sacrifice its principles at the bidding of Mr. BUCHANAN. We copy a portion of its emphatic protest against the new Shibboleth of the Democratic Party:

> The Democratic party in Wisconsin is almost a unit in opposition to that swindle. The exceptions, so far as we know, are only those persons who hold offices, and those presses which are receiving patronage from the government. We have noticed that these folks make a very loud outcry in proclaiming their position. It is perhaps very proper that they do so. Washington is some distance off, and to be heard there one must make some noise. We object, however, to the joke going any further. If an editor sees fit to go to for Lecompton for the sake of a post-office or a little printing, why let him go it; it is his own matter. We expect the balance of the press, however, will not be called upon to stultify itself with him.
>
> The Democrats of Wisconsin number upwards of fifty thousand. Of this number, it is very doubtful whether more than five hundred nominally support "Lecompton"—of which doubtless four hundred and ninety at heart detest it. The Democratic press of Wisconsin numbers from fifty to seventy-five. Of these, so far as we have seen, six go for "Lecompton." Two of them are owned by land officers, one by a post-master, and one by a man who expects to be a post-master, and five of them are receiving government patronage. In the face of these facts, it is as absurd to say that there is a "Lecompton" sentiment in Wisconsin, as it would be to say that there is a party born in favor of the Devil, because there are those who, being in the interest of that individual, conceive it to be for their advantage to conciliate him.

A Bull of Excommunication—Tortures for the Recusant.

Special Correspondent of the Pennsylvanian.

WASHINGTON, Wednesday, Feb. 17, 1858.

Mr. Douglas having abandoned the Democratic Party, and thrown himself entirely into the arms of Republicanism and fanaticism, it is becoming a duty for the friends of the time honored organization of Democracy to treat him as its enemy; and those who have followed his lead will discover before long that they have sold their political faith and honesty, for less than a mess of pottage. The country is already aware that the President has ousted the Postmaster at Chicago, who forgot that he owed certain duties to the party which was rewarding him, and gave his influence to the enemies of the National Administration. For similar reasons, the Postmaster at Columbus, Ohio, has also been removed, and in both these instances Democrats, good and true, have received the places vacated.

It is not improbable that Gov. Medary, who has been appointed Postmaster at Columbus, will repurchase the *Ohio Statesman*, and again make it what it was for years, while under his control—the organ of true Democracy in the Northwest. There can be no doubt that the great mass of the Democratic of the people—of Ohio, are anxious to get rid of the sickening agitation about Kansas. They have been deluded for years on the subject, and in consequence have found their State becoming a very hot-bed of treason. They are now realizing the evils which naturally result from unrestrained fanaticism and uncurbed treason, and the sober second thought will bring them back to their first love of Democracy.—President Buchanan is determined to reward those who are faithful, and the country may rely upon it that political traitors and renegades will receive no countenance or favor.

NEWS FROM JAPAN.—The London *News* says accounts have been received from Japan to the 11th of November. They confirm the fact already announced of the approaching visit to Europe of Prince Tzi-Kuzen, the nephew of the Emperor. He was to embark about the end of December, at Simoda, with a numerous suite, on board the Dutch vessel the Samarang, chartered for the purpose by the Japan government. He will visit France, England, Russia, Holland, and, having to do as much food as possible, he will send to each of his allotted fellow beings as request it, this recipe, with full and explicit directions for making it up, and whose mission will be to examine into the system of railways. The engineers, who are very intelligent men, have already been charged by the Emperor to fit up an electric telegraph which was given to his Majesty by the American Plenipotentiary when the treaty of commerce was signed between those two countries. The telegraph, which goes from the summer place of the Emperor to Jeddo, his capital, a distance of about six miles, works perfectly. The conduct of Japan is encouraging the introduction of European inventions merits remarks, particularly at a moment when China is showing such a very different feeling.

Lake Disasters.

OBSERVATORY, WASHINGTON, Feb. 19.

SIR:—The loss of life and property on the Lakes for the last four years is publicly stated at the following figures:

	Life.	Property.
1854	1,164 persons.	$2,187,826
1855	1191 "	2,795,838
1856	407 "	3,038,874
1857	221 "	1,920,015

These figures may not be strictly accurate; they nevertheless indicate what is well known, namely, that the annual loss of life and property on the lakes amounts to a public calamity. The attention of the Government has been directed to the dangers of lake navigation, and steps have been taken to make those dangers less.

I venture to call the attention of the department to the subject, in connection with the communication I had the honor to address you on the 4th instant.

The object of the communication was to make known a meteorological discovery which Prof. Baye Ballat, of Holland, professes to have made; and the object of this is to suggest the application of that discovery to the navigation of the Lakes.

This Dutch meteorologist claims to have discovered a numerical relation between the force of the wind and the difference of simultaneous barometric pressure at certain stations. From this relation he has been able to deduce rules by which every morning the maximum force of the wind during the day may be predicted, and consequently outward bound vessels may know in the morning if it would be unsafe to put to sea at noon or in the evening.

This is done in Holland, and Prof. Ballat says that during five years the force of the wind has in no instance exceeded the force which his rules indicated. Will his rules work as well on our Lakes? If so, what would not their application be worth to the business that is done there?—We may give them a trial at little or no expense, and such discovery as this purports to be needs of further trial. Before it can be recognized as a reality it wants the test of practical application under a variety of conditions, and such as its author has not had an opportunity of submitting it to.

Holland embraces but a small area in comparison with that of our lake region, and it remains to be seen whether the rule that applies will be applicable here.

We cannot say how many of this thousand persons or how much of this ten millions of property went down or was wrecked in the storm; nor can we say what proportion of all this loss might have been prevented had every vessel before sailing been warned of the weather she might expect to have during the succeeding twenty-four hours. We cannot say this, but we may take for granted that the amount of losses such warning would prevent would not be inconsiderable.

In the present state of this question it seems desirable to bring it to a practical test. This may readily be done. The necessary observations may be made by the keepers at the light-houses along the Lake shores. These keepers are already on pay. The observation at any one station would not require more than ten minutes of the keeper's time daily; therefore the making of them would cost nothing, and the cost of the requisite instruments would be very little.

The observations from each light house should be transmitted daily by telegraph for immediate discussion and announcement.

It is not necessary to go into any argument to show the importance of such extension of our meteorological researches. Every person acquainted with Lake commerce and navigation can form as correct an estimate as I can of the benefit which the shipping there would derive from the application of any rule that would give the mariners foreknowledge of the storm.

Respectfully, &c. M. F. MAURY.

Hon. ISAAC TOUCEY, Secretary of the Navy.

NOTE.—A similar system of observations to be soon inaugurated in France under M. Leverrier, of the Paris Observatory. These weather reports are received daily by telegraph from all parts of the continent.

DYSPEPSIA AND FITS.

DR. TEADY DECOMBE, the great cure for Consumption, New York Post office, has been long afflicted by dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young missionary. And this prescription, given by a mere child while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Fits as of Dyspepsia. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage.

A RETIRED PHYSICIAN,

75 YEARS OF AGE,

WHOSE SANDS OF LIFE have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to die. He had heard much of the wonderful medicinal properties of preparation made of hemp from the East Indian Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to each of his afflicted fellow beings as request it, this recipe, with full and explicit directions for making it up, and whose mission will be to examine into the system of railways. WHEN I SAW SWEET NELLY HOME.

In the sky the bright stars glittered,
On the grass the moonlight fell;
Hushed the sound of daylight's battle,
Closed the pink-eyed pimpernell,
As adown the moon grown world-path—
Where the cattle love to roam—
From Aunt Patty's quilting party,
I was seeing Nelly home.

Jetty ringlets softly fluttered
O'er a brow as white as snow;
And her cheek—the crimson sunset
Scarcely had a warmer glow;
Mid her parted lips vermilion,
White teeth flashed like ocean's foam;
As I walked with pulses throbbing,
As I saw, sweet Nelly home.

When the Autumn flinged the greenwood,
Turning all the leaves to gold,
In the lawn by alders shaded,
I my vow to Nelly told,
As we stood together gazing
On the star-bespangled dome,
How I blessed the August evening,
When I saw sweet Nelly home.

White hairs mingle with my tresses,
Furr we steal upon my brow;
But a love-sun is cheere and blesses
Life's decl ining moments now.
Matron in the snowy wardrobe,
Closer to my bosom come—
Tell me, dost thou still remember
When I saw sweet Nelly home.

ECCENTRIC CHARITY.—There are various ways of doing good, none of which we have the least desire to find fault with. One man takes pleasure in accumulating a large fortune for the sake of bequeathing it to charitable institutions at his death, while another takes pleasure in giving as he goes; one endows a hospital while another founds a library; one man chooses to send Bibles to the Heathen, while another finds satisfaction in giving food to the beggar at his door.
It is well for the world that charitable intentions do not always run in grooves, and that the whims of the benevolent are as diverse as the necessities of the needy. No kind of giving is given in vain. The truest benevolence, though it may not always be the wisest, is that which springs from the desire to see others happy, and which loves to relieve real want on the spot, instead of delegating the power of charity to an almoner.
The present season of suffering has afforded abundant opportunities to the charitably disposed people of New York, and though the demands upon their benevolence have been extraordinary, they have generally been met in a spirit becoming a Christian and affluent metropolis. Among the innumerable private charities of the City, there is an establishment of a very peculiar character, of which we furnish an account in another part of this morning's *Times*. An eccentric philanthropist, named Farmer, has opened a free restaurant at No. 47 Ludlow street, where all hungry people, who have no money, are invited to a free dinner of soup, meat, vegetables and a cup of coffee. Mr. Farmer superintends his *menage* in person, and refuses no one who applies to him. He dines fourteen or fifteen hundred persons daily, and among them are many whose appearance would not indicate a condition of buggary.
It is nearly three months since this novel restaurant was opened, and among the pensioners of the establishment there are fifty or sixty families dependant upon it for their daily bread.
The character of the people frequenting the "free dining saloon" may serve as an indication of the comparative condition of our population. Mr. Farmer divides his visitors into three classes; the first and most numerous are the natives of Ireland; the second are English and American; and the third Germans and Blacks, the Germans forming the smallest number.
The benevolent originator of this excellent establishment, who maintains it at his own cost, is, as a matter of course, an object of a good deal of curiosity, and the charitably disposed are not backward in inventing some adequate motive for his eccentric conduct. While some assert that he must be insane, "other some" sagaciously hint he wants to be Mayor. But, unhappily for us, men of that peculiar stamp do not want to be Mayor, and, if they did, those who make Mayors do not want them. Until we have some good reason for changing our opinion we shall venture to assume that this eccentric philanthropist is instigated by no other motive than a desire to do good to his fellow creatures; or it may be he was in need of a new sensation, and has found it in the excitement of seeing the poor and hungry made comfortable.—*N. Y. Tribune.*
